ALOK PANDEY

Front-End Developer

ABOUT ME

Pursue an engaging position in Front-end development that utilizes four years of expertise in front-end technologies, particularly in React.js, Tailwind and JavaScript to foster innovation and progress.

PROFILE SUMMARY

- Frontend Development:** 4+ Years Of Experience In Building Responsive, Scalable Web Apps Using React.js And Context API.
- UI/UX Execution:** Translated Wireframes And Figma Design Into Interactive Uis, Optimized Performance, And Enhanced User Retention Through Faster Load Times.
- Cross-Platform:** Integrated Real-Time Updates And Ensured Seamless Performance Across Browsers And Devices.
- Team & Innovation:** Led Front-End Teams, Mentored Peers, And Continuously Adopted Modern Frameworks To Deliver User-Centric Solutions.
- Experienced In Low-Code/No-Code Development Frameworks,** Enabling Non Technical Users To Rapidly Create Applications With Minimal Coding, While Understanding The Limitations For More Complex Enterprise Solutions.
- Contributed To The Entire SDLC** From Requirement Analysis, Development, Testing, And Deployment, Delivering Robust Systems That Improve Operational Performance And User Satisfaction.

WORK EXPERIENCE

- **SKYSTOP TECHNOLOGIES – Anantapur Andhra Pradesh**
UI/UX and Front-End Developer | Feb 2021 – Nov 2023
- **FREELANCING**
Front-End Developer | Dec 2023 – Aug 2025

- Spearheaded Development Of Scalable, Responsive Web Applications Using HTML, CSS, React.js, Redux, Context API And Tailwind.
- Led A Team Of Front-End Developers, Ensuring Timely Delivery And Adherence To UX/UI Best Practices.
- Delivered Robust Features Including Real-Time Updates, Dynamic Forms, And Cross-Device Compatibility To Enhance User Experience.

PROJECTS

Project 1: Happer

Link : - <https://Happer.fr/>

Overview:

The Happer Promotes An App That Focuses On Fashion, Community Engagement, And Sharing Personal Styles. It's Described As A "Happy Place" For Fashion Lovers Where Users Can Explore Curated Fashion Items Selected By Content Creators, Share Their Outfits, And Participate In Fashion Contests

Technology Stack:

React.js, Context API, JavaScript, HTML5, CSS3, Tailwind, Figma, AdobeXd, Balsamiq, Adobe Photoshop

Role: Individual Contributor

Key Responsibilities:

- Developed A Responsive And Modular UI Using React.js.
- Translated Wireframes Into Dynamic Web Interfaces In Close Collaboration With UI/UX Designers.

- Implemented Dynamic Form Elements, Client-Side Validations, And State Management Using Redux.
- Integrated Real-Time Updates And Alerts.

Key Achievements:

- Improved User Experience By Incorporating Interactive Forms And Intuitive Data Visualizations.
- Achieved Seamless Cross-Browser And Multi-Device Compatibility For Consistent Performance.
- Optimized Page Load Times And Reduced Rendering Issues Through Effective Component Structuring.

Project 2: Brokkerspot

Overview:

BrokerSpot Is An Real Estate Lead Generation Platform Designed For Agents And Brokers In The Dubai. It Helps Professionals Find And Manage Potential Homebuyer And Seller Leads Based On Location, Budget, And Preferences.

Technology Stack:

Figma, Balsamiq, Adobe Photoshop

Role: Individual Contributor

Project 3: 1CC

Overview:

The Main Idea Of The Application Is To Build A Community For Fitness Enthusiasts. In This Community, Users Can Share Their Workout Photos, Videos, And Posts In A Feed. They Can Also Follow Others, Gaining Followers And Building Their Own Network. Users Can Create Custom Workout Programs, And Every Time They Complete A Workout, They Earn Points. These Points Can Be Used To Subscribe To Premium Features Or Purchase Vouchers. To Unlock Chatting With Other Users, Members Must Redeem Points Or Subscribe To Premium. In Short, It's A Social Media Platform Designed For Gym And Fitness Enthusiasts – Where People Can Connect, Share, And Stay Motivated Together.

Technology Stack:

AdobeXd, Balsamiq, Adobe Photoshop

Role: Individual Contributor
